## STATE CAPITAL.

### GENERAL BILLS REPORTED FAVORABLY.

### SEPARATE COACH LAW.

**The Institute Law Not Popular—Is the Department of Geology Necessary.**

Special to the Democrat.

JEFFERSON CITY, Mo., Jan. 25.—Yesterday was not what would have been called a lively day at the state capital, but still there was work going on.

A strong delegation came down from Kansas City to urge the passage of the proposed salary bill, and they did some good work.

A resolution was offered in the house this morning inviting Prof. Greenwood, of Kansas City, to speak in the hall at 1:30, but the rumor got around that the speech was to be an argument in support of the teacher's institute law and the resolution was killed.

A resolution was offered and adopted to appoint a committee of eight to report as to the necessity for keeping up the office of state geologist.

Capt. Collins, of Wayne, offered a resolution favoring the creation and maintenance of a permanent census bureau by the national government.

The bill requiring railway companies in Missouri to maintain separate coaches for white and colored people in this state was reported favorably from the committee, as was also a bill declaring express companies public carriers and authorizing the railroad commissioners to fix rates for same.

In the senate a bill was introduced by Mr. Weeks to amend the Sunday law so as to exempt from its operations bath houses, bootblacks and newsboys.

Senator Cochran introduced a bill creating the office of bank commissioner to examine banks and other financial institutions.

The senate adjourned until to-morrow. The house took recess.

### Evolution Possible.

The Andrews Opera company appeared at Nevada Monday night and drew about one-third of a house, while Ole Olson packed it a few nights before. The *Democrat* of that city humbly confesses that "comedy is what the average Nevadan wants and nothing else satisfies him," and closes with the satisfying remark that "the skirt dance was exceedingly fine."

### Police Court.

John Henry Summers, drunk, and Mrs. Anna Ingram, disturbing the peace of J. J. Rowe, were the only cases in police court this morning. The case of Hourhammer and Fitzwater, for conducting a dance house, has not been decided and will come up to-morrow.

### A DRUNKEN PASSENGER.

**Two Men Thought to be Counterfeiters Wanted by the Police—Racket on a Train.**

Conductor Ben Blythe, upon the arrival of his train from Warsaw yesterday afternoon, telephoned to the police department to have officers meet the train and arrest two men who had been creating a disturbance. Before the train arrived at Fifth street, the two men got off at Sixteenth and went east. Officers Scally and Mooney went to this point but could find no trace of the men. Detectives Lally and Barnett and Constable Jim Gossage were also engaged in the search. One of the men was seen in East Sedalia by Officer Myers who, not knowing of the trouble, made no arrest.

The disturbance on the train was the result of too much whisky and was soon quieted. The men appeared in Cole Camp last Monday evening between 9 and 10 o'clock having walked, as they said, from Osceola, Mo. Yesterday they began drinking and were rather free with their money. Both were reasonably well dressed. While in a saloon they invited a man by the name of Johnson to "take something" and he asked for a cigar. They refused to allow this and made him take whisky. One of the men showed him quietly a pistol and the matter was reported by Johnson to the constable who did not make an arrest. During the day a telegram came from Lincoln warning the

people to be on the lookout as the men were counterfeiters. They made no attempt to pass bogus money, but were closely watched. When the narrow gauge train pulled out they climbed aboard. One of the men, rather tall and light complexioned, was intoxicated; the other, a much smaller man, is said to have been sober.

The drunken man began to swear and use very offensive language upon the train, and to such an extent that a lady, the wife of the engineer, asked to be taken into the baggage car. Thereupon, Conductor Blythe walked over to the tough and told him that if he said another word he would be thrown off the train; at which the fellow curled down in his seat and went to sleep.

### MRS. PATTI MOORE'S VISIT.

**What the Ladies of Pettis County Will do at the World's Fair—Committees to be Appointed.**

Mrs. Patti Moore left for her home in Kansas City yesterday afternoon after doing much to revive interest among the ladies of the Pettis County World's Fair association.

At the meeting held, Mrs. Sarah Cotton, the chairman, presided. It was decided that the work to be done by the ladies of Pettis county would be the furnishing of the gallery in the Missouri building at Chicago. The gallery will be used to seat spectators and also has space reserved for other purposes. It will be made the headquarters of all Missourians and will be elegantly furnished and will contain a piano. The Sedalia Plating Mill will finish the gallery in Pettis county woods and the work promises to be very beautiful. Mrs. Font M. F. riweather, a Sedalia lady of fine artistic ability, will paint a handsomely illuminated book, illustrating some famous poem, for the ladies.

On next Saturday afternoon, there will be a meeting of the ladies at the residence of Mesdames Smith and Cotton, for the purpose of appointing committees to visit every town in the county and secure their assistance.

### PLEASANTLY REMEMBERED.

**Judge Richard Field Presented With a Handsome Picture—Nicely Acknowledged.**

Shortly after the calling of circuit court this afternoon Judge Richard Field, was surprised by one of the jurors, Mr. T. C. Hayman, of Houstonia, who arose and in a short address full of pleasant wishes, presented him with a most costly and beautiful picture, a present from the jury.

The gift was entirely unexpected and for a moment Judge Field was at a loss for something to say. He soon replied, however, and expressed his heartfelt thanks for the regard shown him and assured the gentlemen that their good wishes would ever be cherished as one of the most pleasant remembrances of his relations with them.

The picture was an etching and represented a beautiful river stealing along quiet shores.

The jurors who participated in the presentation are as follows:

P. H. Longan, E. F. Kemp, Frank L. Keeney, Dresden, Frank C. Hayman, Ed Longan, Houstonia; William Baker, W. H. Glass, Longwood; Charles M. Monsees, John R. Wallace, Smithton; G. W. Anderson, Charles Schwenson, Lake Creek; John T. Oglesby, Blackwater; Mortimer Garton, Lamonte; Emmett Dugan, John W. Baldwin, John W. Hartshorn, John D. Card, John McCurdy, Richard Olmstead, Frank H. Easley, Sedalia.

### Gone on the Road.

Ernest Lamy, lately with Wm. Courtney, has resigned his position with that firm and left yesterday afternoon for a month's trip through Missouri, Kansas and Nebraska, representing the large wholesale house of Loeb, Livingstone & Co., manufacturers of ladies' misses' and children cloaks, Nos. 131 and 133 Race street, Cincinnati, Ohio. Mr. Lamy is a gentleman of extensive experience, has the happy faculty of making everybody his friend, and as a traveling man has before him a most successful future. The *Democrat* wishes him the best in the land.

### A Costly Fire.

CITY OF MEXICO, Jan. 25.—Fire has broken out in the Concepcion Mine resulting in the death of 13 persons and the destruction of a million dollars' worth of property.

## SHOP AND RAIL.

### ITEMS OF INTEREST TO LOCAL TRAINMEN.

**News About Different Roads, Employers and Employees.**

### Steel For the M., K. & T.

Ten car loads of steel rails were brought to this city Monday morning by the C., B. & Q., which was transferred to the M., K. & T. The rails will be used for track laying on the St. Louis and Boonville extension.—*Hannibal Journal*.

### Looking Over the Ground.

Special cars 49 and 26, bearing Simon Sterne, general counsel, New York; C. H. Allen, Helena, Mont., and J. J. Frey, superintendent, Parsons, M., K. & T., officials, arrived on No. 3 Monday from the north. The party remained in the city until 9:30 o'clock and then left for Greenville and other southern points.—*Denison Herald*.

### The Usual Method.

Retrenchment seems to be the watchword on the M., K. & T. just now, and it is estimated that from five hundred to eight hundred men on the system have been thrown out of employment, by reason of which the company save from twenty to thirty thousand dollars.—*Parsons Sun*.

### Conductors Meet.

Conductor J. L. Lafferty, of Sedalia, attended a meeting of the general committee of the Order of Railway Conductors, which met in annual session at the Laclede hotel in St. Louis yesterday. A conference was held with Assistant General Manager George C. Smith of the Missouri Pacific to arrange a new schedule for new territory and branch lines not covered by the old agreement. This was accomplished in a manner mutually satisfactory.

### The East Line & Red River Sold.

The East Line & Red River railway extending from Greenville to Jefferson, Tex., also including a short branch from McKinney, a total distance of 153 miles, was sold yesterday by order of court. A large number of M., K. & T. officials were present. The road was sold for \$1,400,000, Simon Sterne, attorney for Henry W. Poore, trustee of the Central Trust company of New York. This virtually places the M., K. & T. in charge of the road.

The M., K. & T. has received from the east an immense compound engine, very much larger than the usual engine, and will use it in the coal traffic in the south.

### A Pleasant Anniversary.

Rev. E. K. Porter, of Beaman, yesterday celebrated his seventy ninth birthday and as was usual upon such an event was surrounded by his sons, daughters, grandchildren and great grandchildren. The occasion was a most joyful one and to make the day still more memorable the heart of the reverend gentleman was gladdened by the birth of a great grandson. It is to be hoped that he will live to see many more anniversaries.

### Arrested at Lamonte.

Thomas Field, who used a poker on a fellow student at the telegraph college, was arrested at Lamonte this morning and brought to Sedalia by Marshal Chas. Rogers, who turned him over to Constable James Gossage. The case came up before Justice Levens this afternoon.

### New Lodge Organization.

The Woodmen of the World and their wives met last night at their hall, corner Third and Iamige to consider the organization of a ladies auxiliary to the order. It was decided to call the new circle Queen City Grove and to meet every Tuesday evening at 7:30 o'clock.

### Funeral at Windsor.

The remains of Tarlton, the little son of Councilman Bell Hutchinson were taken to Windsor this morning and laid to rest. The ceremonies were conducted by Rev. E. P. Ryland. The pall bearers were W. H. Powell, Jr., Lee Looney, Will Sprecher, C. C. Wells, Taylor King and Chas. S. Williams.

**A Young Man From the Territory  
Gets His Head Pounded—The

A short but effective fight took place about 3:30 o'clock yesterday afternoon at the Western Telegraph Institute and Railroad Business College, corner Main and Ohio.

Perry Lowell, a young from the Cherokee nation who has considerable of the cowboy appearance, and Thomas Field, of Lamonte, were working near each other and became angry over some difference that arose over their sending telegraph messages to each other. Field is small in statu and when the row got to its height, arose sud-

### NEW TRIAL GRANTED.

**The Lawyers to Have Another  
Spell—The Reasons Set Forth—  
Overcome by Gallantry.**

Last week there was a spelling contest in the court house between the lawyers and doctors on the one side and the school ma'ams on the other. It is not often the lawyers are all "put to rout" in contests held in the court room, but they were in this case, their lady opponents scoring an easy victory over them and the doctors combined.

As is usual with the lawyers, they do not like to acknowledge defeat until they have everything which the rules of practice allow them to do. When the judge rules against them they file an exception; when the case is decided against them they file a motion for a new trial; if this is not granted they take an appeal to a higher court, and often they have final victory when it is unexpected.

The lawyers have filed a motion for a new trial in the spelling contest, the motion being as follows:

And now come the lawyers *pro se* and for their professional brothers, the doctors, and file a motion for a new trial of their skill in spelling, and as grounds for such new trial they would state:

1. The trial heretofore had was an unequal one in this, that the school ma'ams were in large numbers, all of them being good looking and in active and regular spelling school practice; that while the total number of lawyers and doctors would possibly equal the school

denly, grabbed a large iron poker from a coal box and like a flash struck Lowell on either side of the head and once on the side. The blows staggered Lowell but did not knock him down. The racket was over almost before the students knew that it had commenced.

Field did not linger and lost no time in leaving the building, leaving behind him his hat and coat. As he passed the pawn shop of H. V. Leist, on West Main he street, borrowed a coat and hat and ran to the Missouri Pacific track where he boarded a west bound Missouri Pacific passenger train that was passing at the time, and went to Lamonte.

A surgeon took twelve stitches on one side of Lowell's head and several in a scalp wound on the other side. He is able to be about his business.

### Famous Hannibal Property Sold.

Sedalia who have lived in Hannibal will note with interest the fact that the Bird property has been sold. The old Bird homestead of 120 acres in the county outside of Hannibal was sold to Col. D. M. Dulany at \$75 per acre. "Wild cat" corner, one of the landmarks of Hannibal, known to the readers of Mark Twain and situated on the corner of Bird street and the levee was sold for \$3,500.

### Is Critically Ill.

Dr. Montgomery, father of Mrs. Zoll, wife of the city engineer, and of James Montgomery, the lawyer, is lying dangerously ill at his home at Longwood. Dr. Montgomery has reached the ripe age of 80 years and they are all filled with honor to himself and his county. Mrs. Zoll and Mr. Montgomery are at his bedside.

### "THE HOLSTEIN."

**Response of C. P. Shepard at the  
Dairymen's Convention.**

It gives me great pleasure to drink to the toast, "The Holstein."

This grand, hardy dairy cow, coming from a vigorous dairy country, is at home on our Missouri prairies, where the northern and southern temperatures fight for supremacy, one holding the land for one day and the other for the next, turn and turn about.

Her strong, vigorous frame can withstand these changes in temperature better than the little Jersey or Guernsey of smaller forms and from a milder clime.

She is the greatest feeder we have. Her capacity for turning fodder and grain and hay into milk and butter is known the world over by those who keep cows for dairy profit. She don't need to have her food fed to her with a spoon. Holsteins can be made to yield milk, butter or beef, just as the owner wishes to direct her development.

She has won complete victories in all these three capacities. This places her, in the world's estimation, very high in the scale of excellency. The Holsteins are not so excitable as some of the little nervous channel island cows and this suits our busy, boisterous western life.

They are good cheese makers. In this they certainly take the lead of all others. Think of the cheese the cow Mercedes would produce in a year when she gave 104 pounds of milk in 24 hours. Another Holstein cow, Pauline Paul, has a record of 1153 pounds and 13 3/4 oz. butter in one year.

That is about \$288 a year for the butter product. Then you have the skimmed milk and calf left out, of which you can make a neat sum. The calf is becoming to be a considerable factor in the dairy business. You often want to sell it for veal and a Holstein calf will bring you as much as three Jersey calves.

It will also bring a better price because it cuts up to a better advantage on the block, so the butchers say, and if you want to raise the steer calves for beef, you have a great advantage when you have Holstein calves to start with.

Holstein milk has the reputation of keeping longer than any other cow's milk and has the preference of restaurants and hotels.

No breed of cattle could ever win the record, call forth the praise, or provoke the envy of the dairy world, like the Holsteins have done, unless they had grand, true commercial worth.

### Kicked Up a Row.

A. J. Brown and C. D. Patrick, from Little Blue, Mo., have been guests at the Laclede hotel north of the track where they told the landlord that they were telegraph operators looking for work. J. Rowe, the proprietor, began to get uneasy about the board bill and yesterday afternoon faintly suggested that a sight of some good coin of the realm would cheer up his spirits. The operators became greatly offended and for a time it looked as if the hotel man would get the worst of it. Peace finally spread her featherless wings over the house and the landlord hid himself away to Justice Blair for a warrant. The offenders were soon in court where they were each fined \$2.50 and costs, a total of \$11, which they paid.

### THE PEOPLE ALL READ

### THE DAILY DEMOCRAT.

It didn't know, you know.

The work of street improvement  
should be pushed this year more  
rapidly than ever.

What has become of "Missouri  
in the cabinet?" If the cabinet  
makers do not hurry up Cleveland  
will do the job himself.

The Mexico *Ledger* favors the  
appropriation by the legislature of  
\$15,000 for a state fair, but thinks  
such fair should be held at Mexico.

The *Gazette* sneers at "boiler  
plate," but uses more of it than any  
other paper in the city. But our  
morning contemporary is never sincere.

The people of Sedalia will ap-  
prove any reasonable expenditure  
for the purpose of putting the city  
in condition to resist a cholera  
epidemic.

The Queen City wants as many  
profitable manufacturing enterprises  
as she can secure, and one way of  
inviting them is to patronize and  
build up those we have.

SENATOR COCHRAN, the able re-  
presentative of the St. Joseph dis-  
trict and editor of the St. Joseph  
*Gazette*, is booked for a speech on  
"lobbying" that is warranted to set  
the woods on fire in the near future.

The best way for a newspaper or  
other enterprise to win the confi-  
dence and respect of the public is  
to deserve it. Slurs and sneers at a  
rival never prove profitable, as one  
of our contemporaries has found  
out.

The people of Pettis county  
should be permitted to say what  
kind of roads they want just as  
they determine the kind of school  
houses they desire. What they  
want and are able and willing to  
pay for they should have.

IMMIGRATION should be restricted  
only to such an extent as is re-  
quired by public order and the pub-  
lic health. Any industrious, honest  
man who wants to come to this  
country to become an American  
citizen should be welcomed, pro-  
vided he does not bring the germs  
of disease with him.

HAVING done all it could to elect  
Warner, the *Star* is very generous  
and profuse in its advice to Gov-  
ernor Stone as to what he should do  
in the matter of Kansas City ap-  
pointments. In all likelihood any  
democrat the governor could name  
would be distasteful to the mug-  
wumps?

The report that Senator Vest had  
gone to New York to confer with

Cleveland in regard to the cabinet  
is denied by the senator himself,  
who says he merely went to Boston  
on private business and has no in-  
tention of conferring with Mr.  
Cleveland on the subject unless  
asked to do so, and he does expect  
to be invited to such conference.

OUR boastful morning contem-  
porary says: "The *Gazette* receives  
its out of town news through the  
associated press and a well arranged  
special news service." That is  
hardly the truth for the *Gazette*  
receives a liberal quantity of "boil-  
er plate" which really constitutes  
the most interesting and newsy part  
of the paper. Give the "boiler  
plate" maker his due and don't at-  
tempt to deceive the public.

"WHISKY on the rise," says Col.  
Shepard, of the New York *Mail* and  
*Express*, "is the news report of a  
democratic paper, which is but an-  
other way of stating that the dem-  
ocracy is triumphant." The colonel  
was so successful, says the *Free*  
*Press*, in putting whisky down—  
according to the testimony in his  
lawsuit with his manager—that he  
resents any attempt to elevate it as  
a personal affront.

A REPUBLICAN exchange says:  
"The democratic party has no  
ideas." What a pity! But if the  
republican party keeps up the lick  
it has been going the last few years  
it will soon have no votes, and for  
all practical purposes a party with-  
out voters is even more useless than  
a party without ideas.

### A GROWING IDEA.

The lower house of congress has  
passed a joint resolution submitting  
a constitutional amendment provid-  
ing that United States senators shall  
be elected by a direct vote of the  
people.

The magnificent and successful  
campaign made on that issue in  
Illinois by John M. Palmer called  
the public attention to the question  
as could have been done in no  
other way.

A similar campaign is about to  
be begun in Iowa by Governor  
Boies, than whom no man in the west  
stands closer to the masses of the  
people upon all vital questions.

In spite of those who cling to  
teaditious, there is a growing senti-  
ment among the people that their  
own affairs are most safely watched  
when they themselves are on guard;  
that their interests are best served  
when they themselves look after  
them; their servants will be most  
faithful when they make the  
selections.

The United States senate as now  
constituted is not a popular body.  
It is currently believed to more  
intimately represent the wealth than  
it does the manhood of the country.

The proportion of millionaires  
among its members has become so  
great as to cause a strong feeling of  
distrust among the masses of the  
people, and in all sections there  
seems to be a strong movement to-  
ward the election of senators by the  
people.

When this is done, a candidate  
for senator must be a man who can  
maintain himself before the people,  
instead of merely being able to  
manipulate a legislature.

It is believed that this movement  
will tend to raise the standard of  
ability in the senate, even though it  
results in reducing the average per  
capita wealth of that body.

### BANK INSPECTION.

In an article in regard to the in-  
spection of state banks, after refer-  
ring to the defeat of the bill in the  
general assembly two years ago, the  
St. Joseph *Gazette* says:

"Since then a bank in Vernon  
county closed its doors with liabil-  
ities aggregating over \$100,000, and  
the assets were found to be almost  
wholly worthless, the depositors re-  
ceiving less than 2 per cent. Sa-  
line county had a case equally as  
bad. People of this region have  
not forgotten the failure  
of Buck & McCroskey at  
Stewartville, with liabilities of  
over \$100,000 and a single postage  
stamp as assets. The failure of  
the McLain bank in Andrew county  
was equally disastrous to its cus-  
tomers. Others will follow. If  
nothing else was accomplished by  
the introduction of the bill referred  
to, it seems to have set public dig-  
nity to reflecting. In his final  
message to the legislature Gov-  
ernor Francis strongly recommends  
the enactment of laws provid-  
ing for the inspection of banks,  
trust companies, building and loan

associations and all other financial  
institutions and corporations. A  
bill has already been introduced in  
the house, and one will be intro-  
duced in the senate in a few days,  
by which this matter will be again  
brought to the attention of the  
general assembly. Forthwith will  
come a protest from the bankers,  
and it remains to be seen whether  
their plea for exemption from a  
system of inspection such as is in  
force in nearly all the states in the  
Union will again triumph. It is  
time for the press and the people  
to speak out on this subject. The  
extent to which insolvent and worth-  
less banks may impose upon the  
public is shown in the history of  
the four defunct institutions already  
referred to. In every instance de-  
posits were received up to the very  
hour of the collapse. Buck & Mc-  
Croskey received deposits after they  
had "spouted" every dollar of  
collateral in their possession and  
mortgaged all their property, real  
and personal. The McLain bank at  
Savannah did the same. So did  
the banks that recently failed in  
Vernon and Saline counties. In all  
these cases the banks had continued  
in business long after their owners  
knew them to be insolvent, going  
deeper and deeper, increas-  
ing the number of their victims and  
the losses entailed upon credulous  
depositors. The Saline county in-  
stitution spent \$60,000 of deposi-  
tors' money in developing coal  
mines owned by the stockholders.  
With bank inspection such rogues-  
ry would be entirely impossible. No  
matter what safeguards are inter-  
posed, there will be bank failures,  
but it requires no argument to  
prove that no such catastrophes as  
those above enumerated could occur  
if the least effort were made by the  
state to supervise and hold within  
bounds the operation of banking  
and financial institutions."

### AMUSEMENTS

**Are Actresses Borne or Schooled?**  
From Baltimore American.

There are many examples of both,  
and it is a question which will never  
probably be settled. Among the  
striking examples of the former are  
Jane Coombs and Mary Anderson.  
Both began their careers before the  
footlights as stars. Both were crude  
in their early efforts, but possessed  
that genius or magnetism which  
carries an audience with them and  
has enabled them to hold their po-  
sitions in the very front rank of the  
artists of the world. Miss Coombs' success  
in London at the Haymarket  
theatre was phenomenal, also at  
Wallack's theatre, New York, and  
her recent tour through Australia  
added to her already great reputa-  
tion. Among the striking examples  
of the latter are Clara Morris and  
Fanny Davenport, who have both  
reached the topmost round of the  
theatrical ladder.

### THE STORY OF A PLASTER.

**He Gave It to His Wife and Was  
Sorry for It—They Attend  
Church.**

Once upon a time, as the story  
runs, there was a distressing mis-  
take in East Sedalia. It cost a  
husband untold remorse and his  
wife an area of cuticle covering  
an area of about ten square inches  
on the farrest portion of her back.  
The lady in question is one of  
great modesty and refinement and  
when a rheumatic pain began to  
annoy her she sent her husband at  
once to a drug store for a porous  
plaster by which she hoped to re-  
lieve her discomfort. The husband,  
out of sympathy, was perhaps over-  
zealous in describing the acuteness  
of the pain and intimated that the  
plaster was for himself.

It was Sunday evening when the  
remedy was applied and as both  
husband and wife were regular  
church attendants, they were both  
soon listening to the eloquence of  
their favorite pastor. In a short  
time the lady, whom we will  
call Mrs. X, for short, began  
to move uneasily in her seat; her  
breathing gradually grew shorter as  
if she had been eating peppermint  
candy. She grabbed Mr. X, frantically  
by the hand and then succumbed for a moment in appar-  
ent collapse. She revived almost  
instantly and with an energy born  
of desperation rushed for the door  
dragging the alarmed husband after  
her. No time was lost in reaching  
home; really it is said to have been  
the fastest walking the unfortunate  
lady ever did.

A hasty examination showed that  
the wretched druggist had made a  
by giving a cantharides plaster—one  
that blisters like fire. The skin  
puffed up terribly and it was  
many weeks before she fully re-  
covered. The husband has never  
been fully forgiven.

## MARTIN NOMINATED.

NAMED BY POPULISTS FOR  
UNITED STATES SENATOR.

DEFEATED DOSTER BY ONE VOTE.

The Choice Made by a Caucus That Lasted  
From 8 O'clock Until After—The  
Republicans Replace Caucus by  
Major Hudson for State Printer  
of Kansas—Not Much Done  
in Either House.

TOPEKA, Kan., Jan. 25.—John Mar-  
tin of this city was nominated on the  
fourteenth ballot for the United States  
senate by the Populist caucus last  
night.

The fight had narrowed down be-  
tween Frank Doster of Marion county  
and Judge Martin, and the ballot  
stood: Martin, 44; Doster, 43.

The contest in the Populist caucus  
was the most spirited fight the new  
party has ever had. There was a bit-  
ter fight made on Martin by numerous  
Democratic leaders and this materially  
influenced the opposition to him  
among the Populists.

From 8 o'clock until 1 o'clock this  
morning the Populist legislators  
fought each other in caucus. Judge  
Martin owes his nomination to the  
stand he took in the Democratic state  
convention when the Populist nomi-  
nees were endorsed.

The Republican caucus last night  
threw George W. Crane overboard and  
made Major J. K. Hudson the Republi-  
can nominee for state printer by a vote  
of 55 to 15. The change was made at  
the suggestion of the Republican  
steering committee.

It is claimed by the politicians who  
are working to secure a Democratic-  
Republican combination that the move  
was the first step toward the com-  
bination, and that the steering com-  
mittee had acted after a consultation  
with the Democrats. Representative  
H. H. Ness county left the Republi-  
can caucus when the result was an-  
nounced and declared that he would  
not vote for Hudson. No further  
action was taken by the Republican  
caucus on the senatorial question.

In the senate yesterday Landis of  
Barber county, offered a bill for the  
establishment of a state normal school  
at Harper City. There are some  
school buildings there available for  
the purpose and it is desired to have  
the state take charge of them and op-  
erate a normal school. A similar bill  
was introduced in the house two years  
ago, but failed of passage.

Assistant Chief Clerk Royce of the  
Republican house again attempted to  
gain the recognition of the senate.  
Senator Parker formally moved that  
his message be received. The presi-  
dent ruled the motion out of order and  
an appeal from the decision was taken.  
The ruling was sustained by a vote of  
21 to 10.

A few minutes before 11 o'clock the  
senate went into executive session to  
consider the appointment of S. W.  
Chase as warden of the penitentiary.  
The appointment was referred to the  
committee on penal institutions the  
usual course.

A ballot was then taken for United  
States senator, after which the senate  
adjourned.

No legislative business was trans-  
acted by either the Populist or Republi-  
can houses. About twenty bills were  
placed on second reading by the Re-  
publicans and then a call of the house  
was ordered to prepare for the ballot  
on senator. The Populists ap-  
pointed a special committee of five to  
examine the governor's message and  
refer the suggestions contained in it  
to the proper committees.

After balloting for United States  
senator both houses took a recess until  
2 o'clock.

The afternoon session was devoted  
on both the Populist and Republican  
side to contests. The Republican elec-  
tions committee in the four postoffice  
cases, where the Populists had ousted  
Republican members, claimed that no  
contests in reality existed. On the  
Populist side Douglass, Republican of  
Gray county was ousted and Morrison,  
Populist, seated.

### A NOVEL PROPOSITION.

Chicago Lawyers Suggest a Way to Deal  
With Ex-Prisoners.

CHICAGO, Jan. 25.—At an informal  
conference of Chicago lawyers yester-  
day, at which the question of filling  
the supreme court vacancy caused by  
the death of Justice Lamar was dis-  
cussed, Alexander Sullivan made a  
suggestion that commended itself as  
an equitable mode of providing for ex-  
presidents in a dignified way when  
they possess the required legal attain-  
ments.

It was that at least a majority of  
those present petition President Har-  
rison to resign, and that Vice President  
Morton, who the country knows would  
make a dignified, safe and patriotic  
president, nominate General Harrison  
to the supreme bench. Harrison's re-  
cognized position as a lawyer would  
make the appointment fit strictly on  
its merits, while it would furnish the  
president with hard work—the best so-  
lace in his domestic grief—and make it  
unnecessary for him to return to his  
desolate Indiana home.

The suggestion was received with  
favor, because it would provide a be-  
coming position without the obnox-  
ious sinecure for an ex-president and  
at the same time give to the country a  
superbly equipped supreme court  
judge.

### New Senators.

CHARLESTON, W. Va., Jan. 25.—Sen-  
ator Faulkner was re-elected yester-  
day to succeed himself in the senate  
and ex-Senator Camden to succeed the  
late Senator Kenna.

CARSON, Nev., Jan. 25.—Senator  
Stewart was yesterday elected to suc-  
ceed himself in the United States sen-  
ate.

### Grain Store Burned at Marshall.

MARSHALL, Mo., Jan. 25.—Fire early  
yesterday morning destroyed Jacob  
& Schrickler's grain store and meat  
market on West North street. But  
little was saved from the buildings.

## JUSTICE LAMAR'S FUNERAL.

It Will Take Place on Friday Afternoon  
at Macon.

MACON, Ga., Jan. 25.—The funeral of  
Justice Lamar will take place Friday  
afternoon, and it has been decided  
that the interment, temporarily at  
least, is to be in the Riverside cemetery.  
The body of the late justice will lie in  
state at Vineville to-day and up to  
noon on Friday, at which time the  
soterge will leave the house for the  
Mulberry street Methodist church  
under escort of the pallbearers rep-  
resenting the bar of Macon, the state  
of Georgia and the supreme bench.

Yesterday telegrams of condolence  
came in from all parts of the United  
States.

### Speculation as to His Successor.

WASHINGTON, Jan. 25.—Speculation  
is already rife over the succession to  
Justice Lamar on the supreme bench.  
The particular person who will be  
chosen is not considered so much as  
the question whether President Har-  
rison will make a nomination to fill  
the vacancy or leave the matter open  
for President Cleveland's action.

It is certain in view of the attitude  
of certain Democratic senators to-  
ward the nomination of Mr. McComas  
to be judge of the court of the District  
of Columbia, that a nomination by  
President Harrison would be antago-  
nized to the end of the session and de-  
feated if possible.

In view of the fact, it is possible that  
the president will not care to provoke  
a bitter controversy, and will take no  
action; but it can be said that he has  
come to no determination upon the  
matter, and will not consider it even  
for several days at least.

Should he decide to make a nomi-  
nation the probabilities are that a mem-  
ber of the United States judiciary  
within justice Lamar's old circuit will  
be honored by the appointment. This  
circuit embraces the states of Ala-  
bama, Florida, Georgia, Louisiana,  
Mississippi and Texas.

### ARIZONA OUT IN THE COLD.

Oklahoma, Utah and New Mexico May  
Become States.

WASHINGTON, Jan. 25.—The Republi-  
can senatorial caucus yesterday after-  
noon decided by a majority vote to  
take favorable action upon the admis-  
sion of the territories of Oklahoma,  
Utah and New Mexico, but left  
Arizona out in the cold. The result  
was not attained until after a pro-  
longed discussion. A great deal of  
opposition was manifested on the part  
of some of the Eastern senators, who  
pointed to what they called the mani-  
fest evidences of the inability of these  
territories to take up the cares and  
burdens of statehood.

Objection was made to the admis-  
sion of New Mexico on account of its  
great preponderance of citizens who  
could not speak or write the English  
language; to Arizona, because of the  
immense debt and poverty of the terri-  
tory; to Utah, on account of the preva-  
lence of polygamy, and to Oklahoma  
by reason of its newness and the ab-  
sence of essentials which go to make  
up a successful territory ready for the  
more advanced position of statehood.

### CHEROKEE COMMISSION.

Secretary Noble Thinks There Is Need  
for Its Continuance.

WASHINGTON, Jan. 25.—Secretary  
Noble says that, in his opinion, the  
federal service requires the continu-  
ance of the Cherokee commission.  
"There are," he says, "several of the  
Indian tribes on the land formerly  
belonging to the Cherokee outlet, with  
whom negotiations should be carried  
on for the purchase of their surplus  
lands. I think it would be to the  
public interest to have this commis-  
sion as now constituted, retained to deal also with the  
civilized tribes in the Indian territory,  
with a view to negotiating for the pur-  
chase or other disposition of their sur-  
plus lands, if congress propose to  
move in that direction. In my judg-  
ment the time has come when the In-  
dian tribes, whether civilized or un-  
civilized should be required to take  
that amount of land which each indi-  
vidual can profitably hold for cultiva-  
tion or grazing and dispose of the re-  
mainder."

### The Girl Horse Thief Again Arrested.

NEVADA, Mo., Jan. 25.—May Calvin,  
a 17-year-old girl horse thief, was ar-  
rested near Irwin, this county, by Mar-  
shal Aul of this city Sunday. She was  
lodged in jail here over night and yester-  
day she was taken to Hepler, Kan.,  
where she stole a buggy and team last  
Sunday. She had been released from  
prison for a similar offence only the  
day before. The team was captured  
with the thief. The girl is a Missouri  
product, her parents residing at  
Taylor, this state.

### St. Louis Double Tragedy.

ST. LOUIS, Mo., Jan. 25.—A little after  
7 o'clock last evening Frank Henschel,  
a clerk in the commission house  
of Schreiner, Naek & Co., shot and  
probably fatally wounded his sweet-  
heart, Miss Alice Bruce, at her home,  
on McNair and Sidney streets, in the  
southern part of the city, and after-  
ward committed suicide. He had no  
cause to quarrel with the girl, and it  
is believed he became crazed from the  
effects of the cigarette habit. He was  
a cigarette fiend.

### He Robbed Once Too Often.

GUTHRIE, Ok., Jan. 25.—Vitus Enten-  
huber, a notorious horse thief who es-  
caped from the United States jail here  
two months ago, was caught in the act  
of robbing a store at Norman last  
night. A battle ensued between him  
and the deputy sheriff, in the course  
of which Entenhuber was fatally  
wounded. Sewed up in his clothes  
were found certificates of deposit for  
\$1,000, \$140 in cash and a gold watch.

## THE LOSS OF LIFE FRIGHTFUL.

The Facts Concerning the Burning of the Great Temple Near Canton Show That the Disaster Was More Horrible Than the First Advice Indicated—Eight Miners Killed in Austria.

SAN FRANCISCO, Jan. 25.—Shanghai advices by way of Vancouver give additional details of the frightful loss of life by the burning of the great temple near Canton, December 30. The facts show that the disaster was more horrible than the first advice indicated.

It seems that on the night before the fire a band of brigands, after having despoiled a number of family houses, tried to raid an exhibition to be held in honor of the Tin Hau goddess and in which were many valuable decorations. Soldiers on guard opened fire on the robbers and a fight ensued. The result was one of the marauders was captured while the rest made their escape.

On the following night several places on the roof of a temporary theater, which formed a part of the amusements, were seen on fire. The flames spread rapidly and soon bamboos and beams were falling from the roof. Some of the audience were knocked down by flaming rafters and badly burned before they could escape. Those who got out could not go home on account of the solid mass of people in the streets and they took refuge in a neighboring temple. This at last caught fire, also, and the scene then was a awful one.

Altogether over 1,000 lives were lost, including those who were burned in the theater. The greater part of the bodies were so horribly burned that identification was impossible. The Chinese are very particular about funeral honors to relatives, but in this case relatives of the dead refused to remove them, and so the ruins were filled with blackened and decayed remains from which an intolerable stench arose. Two hundred and eighty houses in the village were burned.

## NINETEEN MAY YET DIE.

The Death Roll of the Alton Junction Disaster Increasing.

ALTON, Ill., Jan. 25.—Two more deaths occurred last night, W. B. Richardson of Alton, who died at the hospital, and Henry Wiegand, who died at Alton Junction. There are yet nineteen who are considered fatally injured and the probabilities are that all will die, though doctors think that if two survive out of the lot it will be a wonder. The victims are all burned about the same. From head to

foot their wounds extend and some of them are now barely alive. Charles Haller, assessor, James N. Murray and Charles Wilkinson will be buried today. Of those named in the "seriously injured" there may be a death or two, as the physicians anticipate decomposition of the flesh and blood poisoning. The coroner will hold inquests on the last two victims today. The verdicts are all the same, they being merely of accidental death without censuring anybody.

## MUST BOW OR FIGHT

ENGLAND DETERMINED TO HANG ON TO EGYPT.

## THE KHEWIE IN A TIGHT BOX.

John Bull Plainly Tells Him That If He Will Not Do His Bidding He Will Find Some One Who Will.—The Khedive Says He Will Yield Only to Force—France Considerably Worried.

LONDON, Jan. 25.—The latest dispatches from Cairo state that the hostility of the khedive of Egypt toward the English shows no sign of abating. In answering the statement of Lord Cromer, British representative, that a complete change of regime might be necessary in the event of resistance to British authority, the khedive replied that he only yielded to force.

The khedive has been strengthened in his attitude of antagonism toward the English by deputations from the provinces headed by local officials hostile to British control. These have addressed him in flattering language congratulating him on his opposition to the English.

Lord Cromer called on the khedive today to inform him that the British cabinet had ordered an increase of the British garrison. The dispatch does not state how the khedive received the news, but no doubt it had a profound impression in dissipating any idea that Mr. Gladstone intended to abandon Egypt.

The course taken by England is looked upon in France as proving the determination of Great Britain to persist in the occupation of Egypt. The Paris newspapers unanimously call upon the government to vindicate the rights of France.

## TRIBUTES TO THE DEAD.

Supreme Court, Senate and House Adjourn Out of Respect for Justice Lamar.

WASHINGTON, Jan. 25.—When the United States supreme court met as usual yesterday the chair between Justices Gray and Brown was heavily draped in mourning. The death of Justice Lamar was not startling to his associates for they had realized when he left this city for the South that in all probability he would not resume his seat on the bench.

Chief Justice Fuller announced Mr. Justice Lamar's death in a few words, saying: "It again becomes my melancholy duty to announce the death of a member of this court. Mr. Justice Lamar died at Macomb, Ga., last evening. No business will be transacted. The court will adjourn until Monday next."

The court erier at once declared the court adjourned. The justices, with a few exceptions, will attend the funeral of Mr. Lamar.

Justice Field, who is in feeble health, and perhaps some of the other justices will remain here, but a majority of the court will make the trip.

The senate adjourned as a mark of respect to the late Associate Justice Lamar.

The house refused to agree to a motion to take up the sundry civil bill—the fight against it being made by the friends of the bankruptcy bill—and then, as a mark of respect to the memory of the late Justice Lamar, the house adjourned.

## CLEVELAND'S ADVISERS.

Ex-Secretaries Bayard and Whitney and Mr. Carlisle to Confer.

LAKEWOOD, N. J., Jan. 25.—President-elect Cleveland and ex-Secretary of State Bayard, who is the guest of Mr. Cleveland, were up and about early yesterday. Both took a short walk and, after awaiting the arrival of the early train from New York, returned to the cottage.

Ex-Secretary of the Navy Whitney is expected at any time and when he does arrive Mr. Cleveland will go to work upon his cabinet. Mr. Whitney wired that he would be here today.

Mr. Cleveland while in New York Monday finished up all his private legal business for the week so that he could remain here and get down to hard work.

Mr. Cleveland was greatly shocked yesterday when he learned of the sudden death of Associate Justice Lamar. He was not aware of the fact that Mr. Lamar had been seriously ill and could hardly credit the news which was first brought to him by a reporter.

## TOPOLOBAMPO TROUBLES.

All Not Exactly as It Should Be in the Co-operative Colony.

ENTERPRISE, Kan., Jan. 25.—C. B. Hoffman, president of the Kansas Sinaloa investment company, returned yesterday from New York, where he went to see A. K. Owen, president of the Credit Foncier company, connected with the same colony. The colony's affairs have come to such a crisis that there is likely to be either a complete abandonment of the original plan or a collapse.

The colony has been in existence since 1887 and 470 people are now on the ground, some having gone as recently as last November. The chief work of the colonists during the past two years has been the building of a seven mile irrigating canal from the Queto river to the Topolobampo lands, which must be irrigated to produce any crops. The prime idea of the colony has been co-operation and all property has been owned by the company. The Mexican government has granted concessions and there has been about \$50,000 worth of shares in the company sold. Workers on the ditch have been paid in scrip at rate of \$3 a day, the scrip being good for the purchase of land at \$10 an acre or for food at the company storehouse.

The present trouble in the colony arises from a demand on the part of the colonists for a good title to their land and an assurance that their scrip is of value. A. K. Owen, a theorizer of New Jersey, has been issuing the scrip. It is said that something like \$350,000 has been issued, the basis being supposed to be the lands of the company.

The reports have been sent out that there was bankruptcy ahead and Hoffman made a trip to New York especially to see about the matter. Owen, who it is claimed, had been trying to get control of some of the funds, refused to make any report. He has broken with the remainder of the directors and is spending his time accusing them of all manner of wickedness.

That there is any danger of the colonists being defrauded Mr. Hoffman denies, as the arrangement is such that the power is all in his hands. The Kansas Sinaloa company is the property holder of the colony, while the Credit Foncier company owns nothing. Hoffman is thus in a position to dictate terms. There can be no change in the title of the 30,000 acres owned by the company without his consent. According to the terms of the colony's organization there is to be a permanent reorganization in February of this year, when all titles are to be cleared up and permanent directors (ten in number) elected.

## MR. CLEVELAND'S POLICY.

Business Men to Be at the Head of Departments.

NEW YORK, Jan. 25.—The Tribune says that Mr. Cleveland has announced the following as his policy in making appointments: "The next administration will be a business men's administration. By that I mean that business men are to have the preference in the appointments. Of course, the business men will be Democrats, but in making appointments I shall consider the business records of the applicants. That will have greater weight with me than the indorsement of political organizations. I shall appoint successful business men as heads of the departments, and I shall expect this policy to be carried out in all departments of the government. This is the time when business men are needed. The questions before the people are questions that can best be solved by business men. Reforms in the tariff and economy in the government will be easily accomplished if plain, practical, honest business men are appointed."

**AN INTERESTING LEGAL POINT.***A Young Man Accidentally Shoots  
Another and is Tried for Cul-  
pable Negligence.*

Col. Adam Miller and Judge E. M. Zevely, of Linn, Osage county, passed through the city on their way home from Clinton where they had been on important legal business.

Last summer a young man named Lockwood went from Osage county to Henry county to work with a thrashing machine crew. One Sunday in company with a number of friends he went bathing, taking two revolvers with him. On the way all the cartridges were emptied and the revolvers allowed to remain in his clothes on the creek bank, while all were swimming a bystander who happened to have a cartridge in his pocket, slipped it into one of the pistols.

While riding back home a young Texan in the crowd began to relate some of his border experiences and a spirit of rival story telling was aroused, Lockwood was riding in front and carelessly pulling one of the pistols held it over his shoulder and asked the Texan "how he liked that." The young man replied that the gun was "too small for business." Lockwood pulled a larger revolver and holding it over his shoulder, pulled the trigger. A report followed and a young man in the rear of the Texan fell dead from his horse. Lockwood was indicted by the Henry county grand jury for culpable negligence and the present visit of the gentleman from Linn was to defend him.

Col. Miller is a remarkably well preserved man, having reached the age of 80. He passed over the present site of Sedalia as far back as 1838 and has fought in the Mormon, Seminole, Mexican wars and that of the secession.

Judge Zevely is the son of Colonel L. Zevely, deceased, one of the prominent men in the political history of the state and a strong opponent of the Drake constitution and the reconstruction methods.

**Our Married Men.**

The Litchfield Monitor, Tuesday, Nov. 15, 1892 says of the attraction at the opera house, Tuesday, Jan. 31: A great hit. Clark and Williams, the great comedians, appeared at Rhodes' opera house, Monday evening, backed by an excellent company, in "Our Married Men." Mr. Williams, as Gibbs, kept the large audience in a continual uproar of laughter. Their very appearance on the stage called forth ovations. Their songs were excellent, especially the one which recounted several hundred kinds of girls whom they had met in their eventful career. From beginning to end the play teemed with pure and wholesome fun, in quantities to suit the most jovial disposition. We hope to see them come this way again.
